EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Tom Ryan on 7/20/05. This examiner amendment is being made to clarify that the heart of the claimed invention is a friction clip apparatus that requires a tensile force so small to become detached that the appliance to which it is connected is not moved. Wording similar to wording removed by the applicant has been included but without ambiguous terms such as "disturbing."

The application has been amended as follows:

In claim 1 next to last line after "clip member," add – such that the appliance does not substantially move--.

In claim 18 last line after "second component" add -- such that the appliance does not substantially move --.

In claim 21 line 8 after "application of a force" add – such that the location of the appliance does not substantially move --.

2. The following is an examiner's statement of reasons for allowance:

- Reasons for allowance of claims 1 and 18 were provided in the previous office action. To reiterate, the combination in claims 1 and 18 specifically the **friction clip**. Examiner note, most art in this technology uses magnetic force to attach.
- The combination in claim 21 specifically the friction clip structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael C. Zarroli whose telephone number is 571-272-2101. The examiner can normally be reached on 7:30 to 3:30 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, T.C. Patel can be reached on (571) 272-2800 ext 39. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
